

Recruitment for 6^{ème} - 2022 school year for the 'nautical'

At the beginning of the school year 2022, students in the classes of 6^{ème} at Mont des Accords can apply for sports options in 'Kayak or Sailing'.

If you wish to register for your child, please return this document to the school management before 6/05/2022.

Once a student has been selected for the option requested, he/she will have a certain number of extra hours per week and will be required to participate in the sports association.

The sports section is intended for students who wish to conciliate the success of their studies with the regular and sustained practice of a sporting activity.

What are the objectives of the sports section?

- To develop one's personality and gain a better understanding of oneself,
- To develop physical and cognitive abilities that will allow access to the highest level,
- To know and respect the environment where they practice.

Thanks to the practice of kayaking or sailing, it is to encourage the success of all the students, but also positive attitudes towards work within a group with a common objective.

The entry into the sports section is part of a course from 6^{ème} to 3^{ème} of secondary school and, beyond performance, the aim is for the student to develop their self-esteem and values of mutual aid, respect and sharing.

Sports organization :

The Kayak section concerns students from 6^{ème} to 3^{ème} this year, motivated by outdoor activities. The group consists of a maximum of 16 students.

The Sailing section concerns all boys and girls from 6^{ème} to 3^{ème}, wishing to increase their skills leading to competitions in solo or crewed regattas. The group will be made up of a maximum of 15 students per teacher, and will vary according to the type of boat used, from single-handed to double-handed to collective dinghies.

The students will have to show their ability to swim on 25m and be able to immerse themselves during a swimming test. Student benefit from all the teaching hours relevant to their level of schooling, in accordance with the official curriculum, the PE and UNSS project of the school. The Canoeing and Sailing sports sections do not replace the compulsory PE timetable, but complement it : it is therefore a compulsory supplementary lesson for the pupils selected of 3 hours on Friday afternoons.

Any option started in 6^{ème} will end at the end of 3^{ème} and cannot be combined with another option (Latin or LCR...) of the school.

The student is admitted for the whole year. Continuation in the sports section will be conditional on the student's academic results and commitment to sport, and is established at the end of the school year.

Pupils will be called for an interview and tests at the beginning of June. This class is eligible for exemption.

Response document to be returned to the school management by 6/05/2022

APPLICATION FOR REGISTRATION AND COMMITMENT

I, responsible for :

Name/First name of the student..... of the school

requests enrolment in: (*if two choices specify the order of wishes, if you are selected it will be on one*)
